Ironworkers Local 752

RE: Work available with Local 720

Dear Sir and Brother,

In having talked to our signatory contractors and owners, I am very pleased to say that the Ironworkers Local 720 is gearing up to have a very productive 2015! We have a variety of projects starting this February and continuing through the spring throughout the Edmonton and Fort McMurray areas. We want to extend a warm welcome to our fellow brothers and sisters to come out and help us meet our manpower requirements!

The Edmonton area is thriving with a variety of Modular Assembly Yards in and around the city; as well as Regional projects where Subsistence can be available. There is a great deal of Reinforcing work happening both Industrial and Commercial such as several high rise developments and infrastructure projects throughout Edmonton. The Redwater Upgrader Refinery project is also well under way.

The Fort McMurray oil sands is continuing its industrial projects and will also be commencing work on such large projects as Suncor's Fort Hills and CNRL projects. There will be camp jobs available with flights from Calgary and Edmonton, and even jobs where flights across Canada may be available! Great work schedules will be accessible such as a 14 & 7 shift and we have maintenance projects that also ongoing.

Please post the attached flyer for your members to have access to our contact information, website and job postings. We look forward to working together and having a safe and productive 2015!

Fraternally yours,

Robert Blakeman
Business Manager – FST
